LOCATION		STATE ROLE SHOULD BE IN:
FAIRFAY		Wedford Tark and Early and an
FAIRFAX	F	Workforce Tech and Founder
	r	Demand generation for services
	r	Workforce training
	1	Education: Creating the next innovators  Education: Understand the process
		Education: Skills and Curricula
	\ \/	Growing tech force, coordinating private sector, higher ed, and K-12
	V E	Improve Global Competitiveness
	F	Job creation across geographic areas
	•	Addressing and press the State lawmakers in founding and xxx student debt. Growing crisis that will potentially eat
	l	business investment.
	ı	Be a leader in attracting talent in Virginia
	I	University IP/Licensing - Best Practices  Provider of support programs on developing startup businesses and commercialization technology IP University/IP Licensing should be modeled after the California/Boston university systems, less about making money from the ideas than straightforward understandable process. It is a good idea giving away to another UB/C (??) of our service provider harsher terms?
		Provide funding for university research on energy technology
	1	EIRs as part of innovation networks
		<b>Other</b>
	С	Change policy or regulations (by agency) to enable industry disruption (i.e. insurance) ask Jen Finn for example
	1	Meaningful but minimal regulation promoting disruptive industries/technologies
	F	Eliminating barriers to starting on locations in Virginia (tax, administrative, otherwise)
		Network Coordination
	1	Be a trial customer
	1	Set aside a x % of state purchases for startups, new technology, etc.
	V	Coordinating and supporting commercialized R&D for existing companies
	С	Support fund building of local enablers of innovation unique to the region Stakeholder coordination
	I	Provide collaboration network infrastructure
		The state shouldn't be investing in companies more, but rather advertising branding across the country about the
		companies we do have. Can be take them on a roadshow? Service providers: Can we advertise those sectors that we
	U C	Addressing fixing gaps in market. Developing parts of state where funding is not going.  Help strengthen innovation ecosystem
		Direct Investment
		Direct Investment  Elevible financing enpertunities, that leverage/maximize other incentives or enpertunities
	1	Flexible financing opportunities that leverage/maximize other incentives or opportunities
	U	Investor and advocate for entrepreneurs in legislative xxx innovative playground  Provide micro-seed and seed capital (no private match) and non-university funding
	ı	Incentives
	C	Provide tax incentives for skilled labor programs
	ı	Provision of early stage capital given lack of private sector capital
	i	Support ecosystem with services, including people, tax incentives, access to government
	F	Create a business environment and culture that encourages seed capital to be deployed
	C	Provide grants at early stages to mitigate risks.
	F	Matching funds for angel early stage investments
	V	Investment IP commercialization for real technology, inventions/research
	V	Tax policy to incent support of high tech/growth
	F	Loss coverage for early stage investments from angels that support strategic technology targets
		Limit taxes
	F	Higher/continuing ed Assist tech startups with their idea/concept development and funding
	·	
STAUNTON		What was/is missing? - Gaps?
	U	Statewide resource of ability to gather all entrepreneurship support types of available support/funding/education
	F	High growth/entrepreneur density
	I C-U	Lack of consolidated resource list. Silos University leadership commitment to create community accelerator program partnership
	C-0	Capital/small business incentives
		E/O awareness/understanding
		Accountability /assessment of programs
	U	Technology (and money for it)
	F	success
	•	Improve innovation/failure-friendly curriculum K-12
		Innovation in all industries i.e. farming /agriculture
		The potential investor's understanding of new technology processes so they can envision the possibilities. This is not
	С	something the state can help with. I know!

Early stage funding Year round accelerator F Support network C Disconnect of needs with the resources available **Funding Gaps** SBDC doesn't seem to have as much knowledge/expertise on "venture-backed research-driven business as opposed to "traditional" small business. C Glad to see CS been taught in K-12? Need more qualified CS teachers? **Talent Attraction** C STEM education especially for girls in middle school Show how an individual can began as HVAC Tech, for example, and then overtime he/she can start their own business. U Build a pipeline of opportunities for developing entrepreneurs types from elementary through grad schools State's role is to be business friendly and reward success, i.e. incentives for research hiring workforce Database of community members seeking student talent C Development of workforce pipeline (start from K-12) State's role should be > grants > workforce development for technology education Funding coding boot camps Workforce development / training. Help employers understand that community colleges can help them meet their workforce needs. Community colleges don't just train/educate transfer students Collaboration What was missing? A single organizing force to corral all the different directions of stakeholders. We need a consensus builder C-U What should state role be? Connective fabric for statewide equal access and awareness of resources available. Connect people to resources or others Collaboration with Staunton Creative Community Fund, Staunton Innovation Hub (capital and partnership) Short-term focus on high-growth, multi market ventures for now, but don't ignore the smaller businesses for fear of boiling the ocean. Know the ESOs and refer non-targeted firms to organizations that can help them. Effective contributor/motivator, sustainable feasible program for development. Includes T/A mentors for success and sustainability, accountability Link for regional initiatives Provide seed fund for entrepreneurs and regional initiatives Connect accelerators, funds, etc. C Networking of stakeholders Connected to Staunton Innovation Hub (university) Investment Innovation friendly funding (aka tolerant to failure, failure friendly Innovation economy: grant process, high growth support State role: funding and resources for innovators and accelerators C-U Risk capital via grants for prototype development, milestone based U Knowledge about what is available for funding and training /education across the state C-U Statewide programming support for entrepreneurs via ICAP expansion and financial support Provide a statewide angel network that convenes regionally, quarterly to meet potential companies State role: investment and education esp. angels ٧ State role: Access to capital, encouraging, incentives for private investment, supportive Remove access barriers for women and minorities Innovation friendly policies aka tolerant to failure Place making Support hubs/accelerators/incubators **Funding for Space** "Dirty space" > rough not polished, a cross between a garage and a shiny lab, staffed by enablers, equipped with tools. Tech labs in communities /education settings U Other Tax credits and or breaks to recruit large companies vs small companies investors or similar benefits. It speaks to what we F are investing in: large vs small. There is need for both, but perception needs to be there . Promote strength of small businesses in VA success C support innovation and advise on how to proceed to maximize success State role: Support system What was/is influential What is working? Networking

Resource knowledge - JMU

1717 Incubator

Angel investment in startups via Shenandoah Valley Angel Investors (SVAI)

Research gathering understanding the community, understanding what exist.

Connecting to capital. Connecting to potential partners, customers. DHCD and VEDP programs.

Worked: Motivated community stakeholders passionate about community/place building

C-U

U

	V	Worked: Need for service, both private and public sector
	F	SBDC
	•	What worked: small scale (relative) of Staunton community. Easy to access needed stakeholders in public and private
	F	sector, lots of community minded people
DANVILLE		Funding/Investment
	l l	Strategic investment to attract private a federal funds or to seed needed capacity building
	ſ	Incent R&D- incentive needs to be focused on needs of entrepreneur Support and drive SBIC, RBIC formation and entrepreneurship investment for tech capabilities
	F	Support and drive spic, kinc formation and entrepreneursing investment for tech capabilities  Support high growth/venture back? Founder! "Seed fund"
	C	Drive jobs and headquarter placement university areas with incentives
	V	Thought leadership/clearing hours for diversified entrepreneurship ecosystem development
	1	Help communities conduct high-growth opportunity pilot projects with leadership and funding
	1	Leadership in coalescing new high-growth industries
		Support regional TBED plans (where they exist), help regions develop TBED plans (where they don't exist), integrate
	С	regional plans into a state plan
	F	Broadband in every home, school and business.
	V	State-funded VC to back angel/seed funded startups
	l .	Develop more, more qualified entrepreneurs
	C -	Technical assistance for apps, plans, etc.
	F	Research identifying key areas for opportunities and key risks that will impact marketplace (like climate change)
	C	Digital industry drive tech infrastructure in rural remote and LMI HH
	1	Prime the pump, fill market void in (targeted) early stage venture funding Support commercialization of research via business formation
	1	Provide policy guidance and legislation as needed i.e.IP laws, university IP, private equity
	I	Inventory of Resources
	F	Funding early stage 50K - 250K
	·	Turium g curry stuge 55% 256%
ROANOKE/BLACKSB	URG	Region would benefit from move
	С	Business founders/serial entrepreneurs
	С	Mid-career and senior software developers/engineers and project management sales and marketing
	С	Sales and marketing talent
	U	Investment in workforce programs especially through community colleges will automatically reinforce outreach to K-12
	I	Limited Role
	1	Facilitator, not creator
	I	Incentives for investment
	UFICV	Culture
	UFICV U	Support innovative education opportunities in the form of tuition grants, equipment grants, student support services
		Support innovative education opportunities in the form of tuition grants, equipment grants, student support services
